  - Letters will be sent in January
  - 3 Terms are over at Annual Meeting in February
     Nancy Stanford, Cody Jansa, Jason Andruk
     1 Greenwood Acres BOD position with term ending in 2025 is open.

#### **Public Comment:**

#### Adjourn

At any time during the meeting, the Board of Directors may adjourn into closed, executive session with respect to one or more of the items listed above, in compliance with the applicable provisions of the Texas Open Meetings Act, Tex. Gov't Code Ann. ch. 551, subch. D, as amended (Sec. 551.071, consultation with attorney; Sec. 551.072, deliberation about real property; Sec. 551.073, deliberations about gifts and donations; Sec. 551.074, personnel matters; Sec. 551.076, deliberations about security devices; Sec. 551.086, economic development); and as otherwise authorized under the Open Meetings Act.

Nancy Stanford, 3G BOD President

#### 3G Meeting November 13, 2023

BOD Present: Annette Chamberlain, Jack Evans, Jay Andruk, Jeff Davidson, Collins King

on Zoom: Nancy Stanford

PGMS Rep: Patrick

Meeting started at 6:00 pm

#### **Approval of October Minutes**

Motion made to approve last month minutes by Jack and seconded by Jeff and approved by all.

#### **Financial Report**

#### **Income & Expense Report**

Collins presented Financial Report

#### Invoices

Motion made to accept Financial Report by Jack and seconded by Jeff and approved by all.

Motion made to approve pay Invoices by Jeff and seconded by Jay and approved by all.

#### Patrick presented Operation's report.

Discussions ensued about a leak in Greenwood and Golden Beach

Jeff asked about the pressure and Patrick said the reports have been good.

Motion made to accept Operation's report by Jay and seconded by Jack.

#### Significant Events

Approval for Geola Line is still under review by TCEQ.

Discussions ensued about Dan Bullock's proposal.

#### **Drought Contingency Plan**

Patrick said they will read the well (static level) tomorrow and it was proposed to do it monthly to establish a baseline. It will cost \$25.00 a well.

Collins proposed to have a table in the monthly reports showing levels.

Motion made by Jeff to read static level of wells monthly, report it in our monthly meetings and it was seconded by Jay and approved by all.

Collins asked how to we notify customers of a drought contingency stage change and it was suggested put it in the bill, on the website and signage.

#### TCEQ water outage mandatory report.

#### **Director's Report**

Need to establish threshold's for drought contingency conditions

Information is useful when determining water rates.

#### **Old Business**

Turner control panel will probably be another two weeks.

Jay has reached out to his new CPA and he will try and find us someone who does water utility audits

Discussions ensued about water rate changes. Jay suggest we do something to help replace money used to replace lines, etc..... and soon.

Nancy suggested forming a subcommittee. Nancy suggested checking to see what other companies are charging in the area. Jay, Nancy and Collins volunteered to put together three proposals on a water rate hike.

#### **New Business**

Jay asked about Care Flight. Anyone can opt out of a Care Flight. The question was asked, what do you get for the Care Flight. Discussions ensued about what Care Flight covers financially.

Nancy is going to put Care Flight information on website.

Motion made by Jack to adjourn meeting at 7:06 and seconded by Jeff, approved by all.

If your bill reflects that you owe a Balance Forward, you must make a payment immediately in order to avoid collection activities. You must pay a minimum of \$143.84 by your due date to avoid disconnection of your local service. All other charges should be paid by your due date to keep your account current.

HURRICANE PREPAREDNESS - Hurricane Season is Jun 1 - Nov 30. We recommend you sign up for your community or county warning system. Please refer to the Texas Hurricane Center website gov.texas.gov/hurricane for making a plan to protect your family, pets and property, along with contact resources for staying safe during the storm. If you or anyone you know will need assistance in an emergency event, register with the State of Texas Emergency Assistance Registry (STEAR): stear.tdem.texas.gov or dial 2-1-1.

Important promotional pricing information...

The term service plan to which you subscribe includes an early termination fee if you cancel or change services before your term expires. Refer to the Monthly Service Charges section of this bill for applicable term dates. Questions? HURRICANE PREPAREDNESS - Hurricane Season is Jun 1 - Nov 30. We recommend you sign up for your community or county warning system. Please refer to the Texas Hurricane Center website gov.texas.gov/hurricane for making a plan to protect your family, pets and property, along with contact resources for staying safe during the storm. If you or anyone you know will need assistance in an emergency event, register with the State of Texas Emergency Assistance Registry (STEAR): stear.tdem.texas.gov or dial 2-1-1.

Important promotional pricing information...

The term service plan to which you subscribe includes an early termination fee if you cancel or change services before your term expires. Refer to the Monthly Service Charges section of this bill for applicable term dates. Questions? Please contact Frontier or visit frontier.com/terms or frontier.com/tariffs for other important service Terms, Conditions, and Policies.

Beginning October 1, 2023, the Federal USF Recovery Charge and the Frontier Long Distance Federal USF Surcharge are increasing from 29.2% to 34.5% of the taxable interstate and international portions of your phone bill. Both charges support the Universal Service Fund, which keeps local phone service affordable for all Americans by providing discounts on services to schools, libraries, and people living in rural and high-cost areas. #### Memorandum

To: Nancy Stanford, President

Governing Board of Directors

3G Water Supply Corporation

From: Patric C. King, General Management

Subj: System Operations and Management Report

Date: December 11, 2023

Dear President Stanford, et al.

Professional General Management Services, Inc. (PGMS, Inc.) is pleased to provide the following information relating to water system management for the period ending November 2023.

#### I. Water Operations Report:

A. Water Accountability/Pumping Report.

Period Ending	Gallons Pumped (+)	Gallons Sold (-)	Gallons Flushed/Leaks (-)	Gallons Accounted For	Net Water Loss
Jan. 2023	939,200	646,360	132,912	779,272	159,928 /17.03%
Feb. 2023	961,300	809,280	41,575	850,055	110,445 /14.49%
Mar. 2023	931,300	752,130	41,325	739,455	127,845 /14.80%
April 2023	1.019,000	800,000	34,230	834,230	185,670 /18.21%
May 2023	916,900	675,550	96,400	771,950	145,950 /15.81%
June 2023	1,343,200	1,092,150	58,736	1,130,886	212,314 /15.81%
July 2023	1,459,800	1,398,090	85,339	1,483,429	-23,629 /-1.62%
Aug. 2023	2,018,680	1,536,440	87,462	1,623,902	394,778 /19.56%
Sept. 2023	1,528,700	1,065,640	234,870	1,300,510	228,190 /14.93%
Oct. 2023	1,081,300	712,490	203,127	915,617	165,683 (15.32%)
Nov. 2023	930,600	730,940	163,919	894,859	35,743 (3.84%)
Dec. 2022	978,700	637,970	132,912	770,882	207,818 (21.23%)

(Gallons Pumped) - (Gallons sold) - (Estimated Gallons flushed) = (Net Water Loss) / Gallons pumped = Percentage water loss

(For frame of reference, a 5-gallon per minute leak over a 24-hour period totals 7,200 gallons/day, or 216,000/month.)

#### B. Water Leak & Repair Report.

• An itemized list of water loss from leaks and flushing is attached to this report. Total estimated gallons lost (leaks / flushing) but accounted for this period <u>163,919 gallons</u>. (Please see leak and flushing Report Attached).

#### C. System Report:

Monthly Bacteriological Testing.

The routine monthly bacteriological sample (1 ea.) and (1 ea.) additional monthly bacteriological sample were taken from the new Golden Beach lake line were submitted for testing this period resulting in no coliform organisms found.

II. Systems Accounts. Water Customer Account Summary. Below recaps dollars (\$\$) billed.

		Current Period (November 2023)	# Of Acct	Previous Period (October 2023)	# Of Accts.

14.	Total current charges	\$22,804.24	273	\$19,654.36	271

#### III. Significant Events:

#### A. Status of TCEQ Violations.

Management continues to work with Don Rauschuber, P.E. to complete a letter in response to the alleged violations from the previous comprehensive compliance investigation outlined in TCEQ letter dated October 5, 2023. The deadline to respond is now December 1, 2023. Our goal is to have a final draft available prior to the meeting.

#### B. <u>Lake Line Crossing – Geola.</u>

Management has reached out to TCEQ to find out the status of the exception request that was submitted on or about September 22, 2023. Management is now informed the current turnaround for such requests is 100 days. Given this, we may expect to hear back from TCEQ sometime in early January 2024. (See email from TCEQ dated December 6, 2023).

#### C. <u>Drought Contingency Plan Review</u>.

At the November 2023 meeting, we discussed appropriate drought trigger conditions for the Drought Contingency Plan ("DCP"). There is a consensus to use water production levels as trigger conditions. Also as discussed, this will require the addition of an hour meter to each well (4 each). Mr. Keith Seibert of 5S Service Company indicated he would install hour meters once he is on site to install the new plant control panel. The control panel is now in production and should be completed within the next 30 days, barring any additional delays.

In the meantime, pumping data and water levels were taken at each well on November 16, 2023. (*Please see attached*). Below, this data is compared to data that is found with the current DCP and dated May 2014.

Well No.	5 / 2014 GPM's	11 / 2023 GPM's
No. 3	38	32
No. 8	54	63
No. 7	27	30
No. 9	58	46
TOTAL GPM's	177	171

Additionally, below is a side by side comparison of the static levels now and then.

Well No.	2014 Static level	2023 Static level	Difference
No.3	36-3'	30-6'	+5.7'
No. 8	35 - 9'	37 – 0'	-1.1'
No. 7	29 – 9'	26' – 1'	+3.8'
No. 9	34 – 8'	26' - 5'	+8.3

Average difference + 4.17'

This information indicates that current total gallons per minutes is reduced by <u>6 GPMs</u> since May 2014. In addition, the static water level has risen <u>4.17</u>' since May 2014.

Once the hour meters are installed, we can trend this data by taking monthly readings. This data will provide a base line from which we can use to establish trigger conditions to the DCP.

#### D. Emergency Preparedness Plan Update.

On December 1, 2023, we received an email from the TCEQ requesting additional information relating to the Emergency Preparedness Plan that was submitted prior to September 2022. The Plan was updated with the requested information and submitted on December 7, 2023. The plan along with attachments is 42 pages in length, is being emailed to everyone and a copy will be left at the office for your reading pleasure. (See email string dated December 4, 2023).

#### E. Report from the Rate Subcommittee.

Attached to this report is a report from the Rate Subcommittee dated December 11, 2023. This is an action item on this evening's agenda. (See attached Rate Subcommittee Report).

#### F. Meter change-outs

Work orders have been issued to have meters changed out that are registering at or near 1,000,000 gallons. A list of those locations is attached this this report. This work will be scheduled to proceed in the coming weeks. (See meter change list attached).

#### G. Emergency Call outs.

On December 4, 2023, while attempting to repair a leak, a 3 inch water line come apart at the joint at 109 North Ridgeview. The leak was unable to be isolated and resulted in a loss or reduction of system pressure. This resulted in a Boil Water Notice that was sent to those on our email lists. A sample was taken that same day and the results of the special sample showed no coliform organisms found. Once this information was learned, notification was provided to the member's email list to rescinded on December 6, 2023. President Stanford received an email complaint from Ms. Irene Johnson and responded to her concerns. (See attached email dated December 7, 2023).

#### H. Terms of Office 2023.

The terms of office for each director's position is attached to this report for discussion. The Annual meeting will be held in February 2024. (See attached terms of office, 2023).

RE: 3G Water supply Corporation / Request for an Exception to the Rules

Mr. King

3 G WSC exception request was received on September 22<sup>nd</sup>, and is currently in the review status. We are averaging around 100 days for processing. I do not know why your email bounced back as undeliverable because you did use the right email address. You might have better luck reaching Ms. Resendez with her office phone at 512-239-1018.

Thank you, Sarah Findley

Subject: FW: 3G Water supply Corporation / Request for an Exception to the Rules

Ms. Findley,

I sent the message below (in yellow) to Ms. Resendez but it bounced back as undeliverable. May I get a status report to the exception request submitted to your office on or about September 20, 2023.

Thank you in advance for your kind assistance.

#### DROUGHT CONTINGENCY PLAN

#### Section 1 Introduction

3G Water Supply Corp. is a non-profit utility which is owned by its customers. Each customer has a membership in the corporation. The corporation has a nine member Board of Directors to manage the system. They are elected from the membership to serve 3 year staggered terms with no monetary compensation. The system is operated by a Contract Operator with a minimum of a Class "C" License. 3G provides water service to three subdivisions: Greenwood Acres, Golden Beach, and Geola Estates. 3G currently has 256 customers with very limited potential for growth. 70 of the 256 customers are weekend or part time residents, with some of the residents here only 2 or 3 times a year. On 3G's last population survey in 2010, there were 343 permanent residents. 35 of 3G's customers have private water wells used for irrigation. All lots in the three subdivisions have been sold and those not built on, are mostly owned by adjacent property owners. As of this date, 3G Corp. is in good standing with T.C.E.Q. rules with regards to drinking water supply, treatment, storage, capacity, and pressure tank capacity and pressure in system.

#### 1. Water Supply

3G currently has 4 water wells that provide water to the water treatment plant (WTP). Wells No. 3 & 8 are located about 300' west of the WTP in a park and are 90' apart. Wells No. 7 & 9 are located about 3,000 feet west of the WTP on lots owned by 3G Corp. and are 60' apart These wells are all in the Ellen Berger Aquifer. None of these wells are G.U.I. Wells (Groundwater Under the Direct Influence of Surface Water). 3G has a filter system at the WTP that was installed when 3G had a G.U.I. well in service. The filter system is still being operated to improve water quality and will already be in place should one of 3G's – 4 wells test in the future to be a G.U.I. Well. The wells currently have a combined capacity of 152 GPM measured at the WTP. T.C.E.Q.'s current required capacity for 3G's system is 69 GPM. Wells No. 8 & 9 are relatively new wells, about 6 years old.

The water level in the aquifer was checked in the four wells on May 16, 2014. The water level was measured from the top of the casing.

Wells	Static Level	Level after pumping for 1 hour	Pump Depth	Flow Rate G.P.M.	
#3	36.3'	37.8	80'	38	
#8	35.9'	44.0	80'	54	Si
#7	29.9'	34.0	70'	27	
#9	34.8'	36.1	75°	58	

These wells will be checked again monthly. The wells were checked in mid July 2013, and all 4 wells have dropped another 5'. As of July 20, 2013, 3G moved to Stage 2 of the Drought Contingency Plan.

Subject: FW: 3G WSC 1500006 EPP

Good morning,

I wanted to follow up regarding the Request for Information letter and the email that was sent to the PDWEPP inbox. I attached the emails that were referenced in the RFI regarding the EPP for PWS 1500006 3 G WSC to provide clarification on any miscommunication.

Here is the comments on the needed revisions on the EPP

#### 3 G WSC

#### 1. Page 1

- a. Update "Expected Completion Date" to reflect when your EPP will be fully implemented.
- b. Provide a signature, title, date.

#### 2. Question 1 Page 3

- a. Verify that the Source ID matched with the ground water wells.
- b. Verify the ground water under the influence well that is listed. Drinking Water Watch indicates G1500006I and G1500006E are GUI wells.
- 3. Question 3B Page 4: Verify that all storage tanks are listed with their respective capacity.
- 4. Question 8 Page 6: Provide an electrical diagram.
- 5. Option 1 Page 10
  - a. Recommend providing a picture of the name plate to verify the generator or verify the generator's model number.
  - b. Verify the amount of fuel used per hour.

If you have any questions, please let me know.

Thank you!

# Rate Subcommittee report December 11, 2023

Subcommittee BOD Members: Collins King, Nancy Stanford, Jay Andruk

#### **Proposal**

We are proposing to leave the base rate at

\$65 per connection then charge for usage at the following rates:

\$4 per 1000 up to 4,000

\$11 per 1000 up to 20,000

\$15 per 1000 over 20,000

If these rates were in place over the past year, with the base rate of \$65, our Revenue would have been higher by about \$34,000

We also propose to raise the service rates on the tariff as shown below in parenthesis:

RETURNED CHECK FEE .....\$ 25 (\$30)

Site-specific equipment or supplies necessary to provide water service incur additional charges.

#### Factors we agreed on for the proposal:

- 1) Based on replacing the savings we spent on the Golden Beach transmission line, the upcoming expenses for the Geola line and the additional capital improvements in the works, we determined our target rate change should target about \$30K in incremental revenue/year.
- 2) We agreed that the \$65 base rate is high enough and should not be increased.
- 3) We wanted to make the fees appropriate for all members based on their usage. We decided that we should charge for all gallons used and not include usage in the base connection fee. Including 4000 gallons in the base fee obscures the connection fee and makes it feel like you are paying more per gallon when you are using less.
- 4) The rate change will not affect about 15% of our members who do not use any water, they will still pay \$65 a month.
- 40-60% of our members who use less than 4000 gallons will see an increase of \$4-\$16 per month.
- The remaining members who use more than 4000 gallons will have bills higher by \$20-\$30 per month.

Professional General Management Services, Inc. 26550 Ranch Rd 12, Suite 1, Dripping Springs, TX 78620

Geola Estates Golden Beach Greenwood Acres

(512) 894-3322 or (866) 643-3472

3gwatersupply@gmail.com

#### **PROPOSAL**

#### **2024 RATE SCHEDULE**

MEMBERSHIP FEE	\$350
To be paid by all new property owners before water service can be established as stated in the bylaws of 3G Water Supply Corporation. Membership fee is refundable; however, it is not transferable. The Membership Fee for water service is \$350.00 for each service unit (meter).	•
- <u>Forfeiture of Service and Membership</u> : Nonpayment of water service for a period of 60 days following the date the amount owed is initially due. A late notice will be sent notifying the customer that unless the bill is paid, the water service will be disconnected and membership in the corporation will be forfeited after the 60 day period. (07-14-08)	
WATER RATES	\$ 65
Set at \$65.00 base rate per month plus \$4 per 1,000 gallons used up to 4,000 gallons; \$11 per 1,000 gallons used over 4,000 gallons up to 20,000; \$15 per 1,000 gallons used over 20,000 gallons. The Base Rate must be paid monthly to the Corporation, whether or not water is used.	·
- <u>Late Fee ("Past Due Amount")</u> : If payment of the monthly bill is not received by the 20 <sup>th</sup> day of the month due, a late fee of \$5.00 or 5% of the total amount due, whichever is greater, will be added.	
RENTER'S DEPOSIT	.\$200
Deposit to be paid by all customers renting houses where owner does not pay bill. This deposit will be refundable less final bill due.	
CONNECTION FEE AND/OR SPECIAL METER READING FEE	.\$ 60
A service charge set for connecting or reconnecting of water service. Regular hours are 9:00 a.m. to 3:00 p.m., Monday-Friday.	
CONNECTION FEE (AFTER HOURS)  If a connection is made other than hours shown above.	.\$ 90
RETURNED CHECK FEE	.\$ 30
METER TEST FEE	.\$ 85
RETURN CHECK FEE	\$ 30
NEW BUILD INSTALLATION - The Corporation shall charge installation fee for service as follows:  WATER TAP FEE  CUSTOMER SERVICE INSPECTION / CONNECTION  ADMINISTRATIVE COSTS  Site-specific equipment or supplies necessary to provide water service will be an additional cost.  • Total basic installation fee is \$1160; plus, the membership fee of \$350.	\$ 100*

December 15, 2023

Dear 3G Water Customers,

Thank you for being a 3G Water customer. We are proud of our water system, and the Board of Directors continues to try and make the best decisions for the members and for our system.

We have a comprehensive plan in place for the water system, which prioritizes capital improvements that need to be completed to support the water needs of our 3G communities. In 2023, we replaced the main transmission line to Golden Beach. We have started working on replacing the transmission line to Geola Estates.

There are numerous additional upgrades that are needed to keep the plant compliant with TCEQ and provide quality water to our members. Capital improvements for 3G are funded with the revenues we collect from monthly water sales.

While we strive to keep water rates low for our membership, rate adjustments are necessary to keep up with rising expenses and to tackle the upgrades we need to maintain the water plant.

On December 11, 2023, the Board of Directors voted to increase water rates.

The minimum rate of \$65 will remain the same, but it will not include water usage. Water usage rates for 1-4,000 gallons a month will be \$4 per 1000 gallons, 4,001-20,000 will be billed at \$11 per 1000 gallons and over 20,000 at \$15 per 1000 gallons. Effective in the January billing cycle (the bill you receive early February).

Monthly Water Usage in Gallons	Per Gallon Rate
0	\$65 Min. Charge
0-4000	\$4 per 1000 Gallons (\$.004/gallon)
4001-20,000	\$11 per 1000 Gallons (\$.011/gallon)
20,001+	\$15 per 1000 Gallons (\$.015/gallon)

Nany Staford

Sincerely, Nancy Stanford, Board President

Re: Notice of Rate Increase

At the December 2023 meeting of 3G Water Supply Corporation, the Board of Directors voted to change our pricing structure to use a base rate of \$65 with additional tiered charges per 1000 gallons used as reflected in the chart below.

The rate increase will be effective beginning with the January 2024 billing.

Rate schedule effective 1/28/2024:

Monthly Water	
Usage in Gallons	Per Gallon Rate
0	\$65 Min. Base Connection Charge
1 - 4,000	\$4.00 per 1000 Gallons (\$.004/gallon)
4,001 - 20,000	\$11.00 per 1000 Gallons (\$.011/gallon)
20,001+	\$15.00 per 1000 Gallons (\$.015/gallon)

Sincerely,

Nancy Stanford

PGMS operates our system.

Call Liza at 512-894-3322 and make sure you get put on the email distribution lists for notifications.

A Boil Water Notification email was sent at 4:40pm to the email contact lists on file at the office for members in Geola & Greenwood Acres.

This was in response to an unanticipated catastrophic line break on Ridgeview that occurred around 4pm.

The water released by the break resulted in the tanks at the plant eventually being emptied and water was cut for all subdivisions.

Golden Beach was added to the Boil Water Notification and additional email was sent to people on that distribution list.

Your water was fine most of the day.

Since your house is above the leak, your water was ok as long as you had adequate pressure.

At our next meeting, we will learn more about the situation and discuss how to avoid it in the future. We are also working to get more members on the distribution/contact lists that are in the office. The status of this effort is on the agenda as well.

3G Water Supply is a non-profit community water system that is run by Volunteers.

We employ PGMS to handle water plant operations and repairs and they also provide office support and customer service.

The BOD consists of 4 members from Greenwood Acres, 3 from Golden Beach, and 2 from Geola serving 3 year terms.

The BOD meets monthly the 2nd Monday of each month at the water plant at 504 Willow in Greenwood Acres.

We currently only have 3 BOD members from Greenwood Acres and would love to have another volunteer join the BOD.

You can volunteer for the current open position with a term running through 2025 or run for election in January of 2024 for a 3 year term.

Our next meeting is Monday December 11th at 6pm at the water plant.

On Mon, Dec 4, 2023 at 8:59 PM susieirene 123 <susieirene123@gmail.com> wrote:

I came home today to find that I have no water pressure. Tried to call your office and the phone line continued to be busy all afternoon. I finally had to text a neighbor to ask if they were having water problems - she said that an email went out telling everyone to boil water until further notice because of a leak on Ridgeview.

I have checked my inbox, spam and junk files for both my gmail accounts you have on file and I do not have any emails from 3G. This is VERY concerning to me as I drink my water from the faucet and have been drinking it all day.

In addition to the above, since we moved into the Greenwood neighborhood, our water supply from 3G has had continuous problems with keeping our water supply safe.

When did this event happen?
How did it happen?
When were the other 3G customers notified?
How has it been remediated?
What action has been taken to prevent this from happening again?

Irene Johnson 608/610 E Cedar Buchanan Dam, TX 78609 512.413.7711

# **Transaction Summary**

Description:	This report gives you an overview of customer payment activity during the specified date
	range. The results are broken down by how the transactions were conducted - Online Profiles
	(your customer logged in to make a payment). Automatic payments. QuickPay payments

(your customer logged in to make a payment), Automatic payments, QuickPay payments, Phone payments, and SMS payments - with the far right column showing totals across all

payment types.

Date Range:	11/01/2023 to 11/30/2023			Load Report				
	Profile	QuickPay	Automatic	Phone	SMS	POS	Total	
Transaction Count	17	4	33	20	0	0	74
